INDEX OF SUBJECTS

A

Adamantinoma. — An instance of . . . of the jaw with metastases to the right lung (*Vorzimer and Perla*) - 445

Agranulocytosis. — Acute leukemia and . . . (*Strumia*) - - - - - - - - - - - 619*

Aneurysm. — Melitensis meningo-encephalitis. Mycotic . . . due to Brucella melitensis var. porcine (*Hansmann and Schenken*) - - - - - 435

Antibodies. — Local immunity and the local formation of . . . (*Cannon and Sullivan*) - 597*

Aorta. — Transient pachymenia of the intima of the . . . with reference to juvenile arteriosclerosis (*Torres*) - 455

Aorta. — Vital staining of the rabbit's . . . in the study of arteriosclerosis (*Duff*) - 219

Aortae. — Medionecrosis . . . idiopathica cystica (*Moritz*) - - - - - - - - - 717

Arteriolitis. — Focal . . . (*Plaut*) - 620*

Arteriosclerosis. — Transient pachymenia of the intima of the aorta with reference to juvenile . . . (*Torres*) - 455

Arteriosclerosis. — Vital staining of the rabbit's aorta in the study of . . . (*Duff*) - 219

Arthritis. — Structure and bacteriology of subcutaneous nodules in chronic . . . (*Clawson*) - 611*

Arthritis. — Subcutaneous nodules in chronic . . . Clinical, pathological and bacteriological studies (*Clawson and Wetherby*) - - - - - - - - - - 283

Atrophy. — . . . of the liver associated with hyperthyroidism (*Beaver*) - - 638*

B

Bacillus of Calmette-Guérin. — A study of the pathogenicity of the . . . (B. C. G.) (*Feldman*) - 755

Bacillus of Calmette-Guérin. — A study of the pathogenicity of the . . . (B. C. G.) (*Feldman*) - 629*

Bacterial filtrates. — Phenomenon of local skin reactivity to . . . in the treatment of Mouse Sarcoma 180 (*Shwartzman and Michailovsky*) 598*

Bacteriology. — Observations concerning postmortem . . . (*Burn*) - - - - 605*

Bacteriophage. — Therapeutic application of . . . in staphylococcus bacteremia (*MacNeal and Frisbee*) - 600*

Bacterium granulosis. — Corneal reactions to . . . and other microorganisms (*Olitsky, Knutti and Tyler*) - - - - - - - - - - - - - - - - - - - 602*

Basedow's disease. — The question of a specific myocardial lesion in hyperthyroidism (. . .) (*Lewis*) - 255

BCG vaccine. — Protection against tuberculosis with . . . in guinea pigs (*Birkhaug*) - 629*

* Abstract of paper presented at the meeting of the American Association of Pathologists and Bacteriologists held at Philadelphia, Pa., April 28 and 29, 1932.

Bone marrow. — Formation of . . . in the suprarenal gland (*Collins*) - - 97

Bone marrow. — Reticulocytes and . . . changes in pigeons after infection and the administration of liver extract (*Lindh Muller*) - - - - 607*

Bones. — Fibrocystic disease of the . . . associated with tumor of a parathyroid gland. Report of a case (*Rosedale*) - - - - - - - - - - - - 745

Brain. — Kernikterus: jaundice of the nuclear masses of the . . . (*Zimmerman and Yannet*) - 612*

Brain. — Spongioblastomas of the . . . (*Bailey*) - - - - - - - - - - - - - - - 638*

Brain. — Tularemic encephalitis. Pathology of acute tularemia with . . . involvement and coexisting tuberculosis (*Hartman*) - - - - - - - - - - 57

Brain abscess. — The etiology of . . . accompanying chronic pulmonary suppuration (*McCordock*) - 638*

Brucella melitensis. — Melitensis meningo-encephalitis. Mycotic aneurysm due to . . . var. porcine (*Hansmann and Schenken*) - - - - - - - 435

C

Cabbage. — Simple goiter produced in rabbits by . . . in the absence of light (*Baldauf and Cipra*) - 638*

Cabbage. — The effect of . . . feeding on the morphology of the thyroid of rabbits (*Zeckwer*) - 235

Cancer. — An analysis of 104 cases of . . . of the large intestine (*Karsner and Clark*) - 638*

Cartilage. — A study of the repair of articular . . . and the reaction of normal joints of adult dogs to surgically created defects of articular . . . , "joint mice" and patellar displacement (*Bennett, Bauer and Maddock*) - 499

Cataphoretic velocity. — . . . of streptococci and pneumococci as isolated in studies of acute colds, influenza and pneumonia (*Rosenow*) - - - - 604*

C. Diphtheriae. — The production of the "G" type colonies of . . . , Park No. 8 strain (*Morton*) - 605*

Chiari network. — The frequency of anomalous reticula in the right atrium of the human heart " . . ." Report of eight cases (*Helwig*) - - 73

Chick embryo. — Vaccinal infection of the chorio-allantoic membrane of the . . . (*Goodpasture, Woodruff and Buddingh*) - - - - - - - - - - - - - 271

Chorio-allantoic membrane. — Vaccinal infection of the . . . of the chick embryo (*Goodpasture, Woodruff and Buddingh*) - - - - - - - - - 271

Circulation. — The . . . in the pancreatic lobule after partial venous obstruction (*Beck and Peterson*) - 573

Cirrhosis. — The histogenesis of atrophic . . . (*Moon*) - - - - - - - - - - - - 613*

Constriction. — Anatomical changes in the livers of dogs following mechanical . . . of the hepatic veins (*Simonds and Callaway*) - - - - - - 159

Contagious abortion. — Comparison of the incitants of undulant fever in man and . . . in cattle in New York State (*Gilbert and Coleman*) - - - 609*

Coronaries. — Microincineration studies of human . . . (*Ku*) - - - - - - - 638*

Cysts. — The origin of epithelium-lined blood . . . (chocolate . . .) of the ovary from the Graafian follicle and its derivatives (*King*) - - - 417

D

Degeneration. — Studies of experimental muscle . . . I. Factors in the production of muscle . . . (*Fishback and Fishback*) ---------- 193
Degeneration. — Studies of experimental muscle . . . II. Standard method of causation of . . . , and repair of the injured muscle (*Fishback and Fishback*) ---------- 211
Development. — Studies in the pathology of . . . II. Some aspects of defective . . . in the dorsal midline (*Ingalls*) ---------- 525
Dimethylguanidine sulphate. — The mechanism of the pressor action of . . . (*Goldblatt and Karsner*) ---------- 638*
Disease. — Fibrocystic . . . of the bones associated with tumor of a parathyroid gland. Report of a case (*Rosedale*) ---------- 745
Dogs. — Anatomical changes in the livers of . . . following mechanical constriction of the hepatic veins (*Simonds and Callaway*) ------- 159
Dogs. — Infectious oral papillomatosis of . . . (*DeMonbreun and Goodpasture*) ---------- 43
Dogs. — Urea clearance in nephropathic . . . (*Hanzal, Goldblatt and Summerville*) ---------- 638*
Dogs. — Urea clearance in normal . . . (*Summerville, Hanzal and Goldblatt*) ---------- 638*
Dopa reaction. — Melanoma studies. I. The . . . in general pathology (*Laidlaw*) ---------- 477
Dopa reaction. — Melanoma studies. II. A simple technique for the . . . (*Laidlaw and Blackberg*) ---------- 491
Dopa reaction. — The . . . in general pathology (*Laidlaw*) ---------- 617*

E

Encephalitis. — Tularemic . . . Pathology of acute tularemia with brain involvement and coexisting tuberculosis (*Hartman*) ---------- 57
Encephalitis. — Yellow fever . . . of the monkey (Macacus rhesus) (*Goodpasture*) ---------- 137
Endocarditis. — Glomerular lesions associated with . . . (*Bell*) ------ 639
Endocarditis. — Glomerular lesions associated with . . . (*Bell*) ------ 622*
Endocarditis. — Micrococcus pharyngis siccus . . . (*Graef, de la Chapelle and Vance*) ---------- 347
Endocarditis. — Syphilitic aortic . . . and superimposed bacterial (Streptococcus viridans) . . . (*Craven*) ---------- 81
Ewing's sarcoma. — The relation of hemopoietic tumors to multiple myelomas and to . . . (*Connor*) ---------- 638*

F

Ferric chloride. — Further studies on the survival time of tuberculous rabbits injected with . . . (*Menkin*) ---------- 636*
Fixation. — The effect of different types of . . . on the silver impregnation of paraffin sections of peripheral nerve (*Foot*) ---------- 777
Fleckmilz. — Multiple infarcts and necroses of the spleen (. . .) (*Rake*) - 107
Fowl-pox. — A histochemical study by microincineration of the inclusion body of . . . (*Danks*) ---------- 711

G

Glia. — Silver impregnation of . . . and nerve fibers in paraffin sections after formalin fixation (*Wilder*) ---------- 785

Gliomas. — Experimental and spontaneous schwannomas (peripheral . . .). I. Experimental schwannomas (*Masson*) ---------- 367

Gliomas. — Experimental and spontaneous schwannomas (peripheral . . .). II. Spontaneous schwannomas (*Masson*) ---------- 389

Glomerular changes. — . . . in the kidneys of rabbits and monkeys induced by uranium nitrate, mercuric chloride and potassium bichromate (*Hunter and Roberts*) ---------- 665

Glomerular lesions. — . . . associated with endocarditis (*Bell*) ------ 639

Glomerular lesions. — . . . associated with endocarditis (*Bell*) ------ 622*

Glomerulonephritis. — Acute diffuse . . . in the rabbit (*Semsroth*) ---- 623*

Goiter. — Simple . . . produced in rabbits by cabbage in the absence of light (*Baldauf and Cipra*) ---------- 638*

" G " type colonies. — The production of the . . . of C. Diphtheriae, Park No. 8 strain (*Morton*) ---------- 605*

H

Heart. — Quantitative observations on the valves of the human . . . (*Gross and Moore*) ---------- 91

Heart. — The frequency of anomalous reticula in the right atrium of the human . . . "Chiari network." Report of eight cases (*Helwig*) --- 73

Hemorrhages. — The subdural space, with special reference to subdural . . . (*Leary*) ---------- 612*

Histochemical studies. — . . . by microincineration of normal and neoplastic tissues (*Scott and Horning*) ---------- 329

Histocyte. — Effect of radium emanation on the . . . in the liver of the white rat (*Higgins and Rogers*) ---------- 355

Hyaline membrane. — On the nature of the " . . . " in the lungs (*Farber*) 603*

Hypersensitive. — Histological studies of . . . reactions (*Dienes and Mallory*) ---------- 689

Hypersensitiveness. — A study of bacterial . . . , with special regard to its value as indicating pathogenicity, and with a comparison of cutaneous, intracutaneous and subcutaneous tests and of their relative values for suggesting appropriate vaccine dosage (*Solis-Cohen*) ---------- 594*

Hyperthyroidism. — Atrophy of the liver associated with . . . (*Beaver*) - 638*

Hyperthyroidism. — The question of a specific myocardial lesion in . . . (Basedow's disease) (*Lewis*) ---------- 255

I

Inclusion body. — A histochemical study by microincineration of the . . . of fowl-pox (*Danks*) ---------- 711

Inclusions. — Intranuclear and cytoplasmic . . . (" protozoan-like bodies ") in the salivary glands and other organs of infants (*Farber and Wolbach*) ---------- 123

Inclusions. — The occurrence of intranuclear . . . in monkeys unaccompanied by specific signs of disease (*Covell*) ---------- 151

Infarcts. — Multiple . . . and necroses of the spleen (Fleckmilz) (*Rake*) - 107
Infection. — Torula . . . A review and report of two cases (*Watts*) - - - - 167
Intestinal. — Mesenterium commune with . . . obstruction (*Moritz*) - - - 735
Intestinal. — Mesenterium commune with . . . obstruction (*Moritz*) - - - 638*
Intestine. — An analysis of 104 cases of cancer of the large . . . (*Karsner and Clark*) - 638*

J

Jaundice. — Kernikterus: . . . of the nuclear masses of the brain (*Zimmerman and Yannet*) - 612*
Jaw. — An instance of adamantinoma of the . . . with metastases to the right lung (*Vorzimer and Perla*) - 445
Joint mice. — A study of the repair of articular cartilage and the reaction of normal joints of adult dogs to surgically created defects of articular cartilage, ". . ." and patellar displacement (*Bennett, Bauer and Maddock*) - 499
Joints. — A study of the repair of articular cartilage and the reaction of normal . . . of adult dogs to surgically created defects of articular cartilage, "joint mice" and patellar displacement (*Bennett, Bauer and Maddock*) - 499

K

Kernikterus. — . . . : jaundice of the nuclear masses of the brain (*Zimmerman and Yannet*) - 612*
Kidney. — The classification of tumors of the . . . with especial reference to the malignant tumors in adults (*Crawford*) - - - - - - - - - - - - 615*
Kidneys. — Glomerular changes in the . . . of rabbits and monkeys induced by uranium nitrate, mercuric chloride and potassium bichromate (*Hunter and Roberts*) - 665

L

Larynx. — A case of multiple papillomata of the . . . with aerial metastases to lungs (*Hilz and Oesterlin*) - 333
Leprosy. — Further studies on experimental . . . and the cultivation of B. Leprae (*McKinley and Soule*) - 608*
Lesion. — The question of a specific myocardial . . . in hyperthyroidism (Basedow's disease) (*Lewis*) - 255
Leukemia. — Acute . . . and agranulocytosis (*Strumia*) - - - - - - - - - - - - 619*
Liver. — Atrophy of the . . . associated with hyperthyroidism (*Beaver*) - 638*
Liver. — Effect of radium emanation on the histocyte in the . . . of the white rat (*Higgins and Rogers*) - 355
Liver extract. — Reticulocytes and bone marrow changes in pigeons after infection and the administration of . . . (*Lindh Muller*) - - - - 607*
Livers. — Anatomical changes in the . . . of dogs following mechanical constriction of the hepatic vein (*Simonds and Callaway*) - - - - - - - - 159
Lung. — An instance of adamantinoma of the jaw with metastases to the right . . . (*Vorzimer and Perla*) - 445
Lungs. — A case of multiple papillomata of the larynx with aerial metastases to . . . (*Hilz and Oesterlin*) - 333

Lungs. — On the nature of the "hyaline" membrane in the . . . (*Farber*) 603*
Lymphatic tumor. — Report of the . . . registry for the year 1931 (*Callender*) - - -

N

Necroses. — Multiple infarcts and . . . of the spleen (Fleckmilz) (*Rake*) 107
Negri body. — Studies on the nature of the . . . (*Covell and Danks*) - - - - 557
Nephrectomy. — Urea clearance following unilateral . . . (*Karsner, Moore and Hanzel*) - 623*
Nerve. — The effect of different types of fixation on the silver impregnation of paraffin sections of peripheral . . . (*Foot*) - - - - - - - - - - 777
Nerve cells. — A method for progressive selective staining of Nissl and nuclear substance in . . . (*Einarson*) - 295
Nerve fibers. — Silver impregnation of glia and . . . in paraffin sections after formalin fixation (*Wilder*) - 785
Nerve fibers. — Two simple methods for the silver impregnation of . . . in paraffin sections of the central and peripheral nervous system (*Foot*) - 769
Nervous elements. — Concerning the histology of melanoma. II. With special consideration as to the . . . of the tumor (*Foot*) - - - - - - - - 321
Nodules. — Structure and bacteriology of subcutaneous . . . in chronic arthritis (*Clawson*) - 611*
Nodules. — Subcutaneous . . . in chronic arthritis. Clinical, pathological and bacteriological studies (*Clawson and Wetherby*) - - - - - - - - - 283

O

Obstruction. — Mesenterium commune with intestinal . . . (*Moritz*) - - 735
Obstruction. — Mesenterium commune with intestinal . . . (*Moritz*) - - 638*
Osteitis fibrosa. — . . . (*Lang*) - 263
Ovary. — The origin of epithelium-lined blood cysts (chocolate cysts) of the . . . from the Graafian follicle and its derivatives (*King*) - - - - 417

P

Pachymenia. — Transient . . . of the intima of the aorta with reference to juvenile arteriosclerosis (*Torres*) - 455
Pancreatic lobule. — The circulation in the . . . after partial venous obstruction (*Beck and Peterson*) - 573
Papillomata. — A case of multiple . . . of the larynx with aerial metastases to lungs (*Hitz and Oesterlin*) - 333
Papillomatosis. — Infectious oral . . . of dogs (*DeMonbreun and Goodpasture*) - 43
Parathyroid gland. — Fibrocystic disease of the bones associated with tumor of a . . . Report of a case (*Rosedale*) - - - - - - - - - - - - - - - - 745
Pathogenicity. — A study of the . . . of the bacillus of Calmette-Guérin (BCG) (*Feldman*) - 755
Phagocytosis. — The relation of sensitization of the flagella and somata of the typhoid bacillus to . . . (*Mudd, Luckè and Strumia*) - - - - - - 597
Pigeons. — Reticulocytes and bone marrow changes in . . . after infection and the administration of liver extract (*Lindh Muller*) - - - - - 607*
Pneumococci. — Cataphoretic velocity of streptococci and . . . as isolated in studies of acute colds, influenza and pneumonia (*Rosenow*) 604*
Pneumonia. — A study of vaccine virus . . . in rabbits (*Muckenfuss, McCordock and Harter*) - 63

Postmortem. — Observations concerning . . . bacteriology (*Burn*) - - - - 605*
Pregnancy. — Renal lesions in the toxemias of . . . (*Bell*) - - - - - - - - - 1
Pressor action. — The mechanism of the . . . of dimethylguanidein sulphate (*Goldblatt and Karsner*) - 638
Protozoan-like bodies. — Intranuclear and cytoplasmic inclusions ("...") in the salivary glands and other organs of infants (*Farber and Wolbach*) - 123
Pulmonary suppuration. — The etiology of brain abscess accompanying chronic . . . (*McCordock*) - 638*

R

Rabbit. — Acute diffuse glomerulonephritis in the . . . (*Semsroth*) - - - - 623*
Rabbit. — A simple method for studying the cytology of the infectious myxoma of the . . . (*Lewis and Gardner*) - - - - - - - - - - - - - - - - - 583
Rabbits. — A study of vaccine virus pneumonia in . . . (*Muckenfuss, McCordock and Harter*) - 63
Rabbits. — The effect of cabbage feeding on the morphology of the thyroid of . . . (*Zeckwer*) - 235
Radium emanation. — Effect of . . . on the histocyte in the liver of the white rat (*Higgins and Rogers*) - 355
Rat. — Effect of radium emanation on the histocyte in the liver of the white . . . (*Higgins and Rogers*) - 355
Reactions. — Corneal . . . to Bacterium granulosis and other microorganisms (*Olitsky, Knutti and Tyler*) - - - - - - - - - - - - - - - - - - - 602*
Reactions. — Histological studies of hypersensitive . . . (*Dienes and Mallory*) - 689
Registry. — Report of the lymphatic tumor . . . for the year 1931 (*Callender*) - 603*
Renal lesions. — . . . in the toxemias of pregnancy (*Bell*) - - - - - - - - - - 1
Reticula. — The frequency of anomalous . . . in the right atrium of the human heart " Chiari network." Report of eight cases (*Helwig*) - - 73
Reticulocytes. — . . . and bone marrow changes in pigeons after infection and the administration of liver extract (*Lindh Muller*) - - - - - - - - 607*

S

Salivary glands. — Intranuclear and cytoplasmic inclusions ("protozoan-like bodies") in the . . . and other organs of infants (*Farber and Wolbach*) - 123
Sarcoma. — Phenomenon of local skin reactivity to bacterial filtrates in the treatment of Mouse . . . 180 (*Shwartzman and Michailovsky*) - - 598*
Schwannomas. — Experimental and spontaneous . . . (peripheral gliomas). I. Experimental . . . (*Masson*) - - - - - - - - - - - - - - - - - - - 367
Schwannomas. — Experimental and spontaneous . . . (peripheral gliomas). II. Spontaneous . . . (*Masson*) - - - - - - - - - - - - - - - - - - - 389
Sensitivity. — ". . ." to sulphydryl (*Reimann*) - - - - - - - - - - - - - - - - 612*
Sensitization. — The relation of . . . of the flagella and somata of the typhoid bacillus to phagocytosis (*Mudd, Lucké and Strumia*) - - - - 597*
Silver impregnation. — A technique of . . . for general laboratory purposes (*Foot and Foot*) - 245

Silver impregnation. — . . . of glia and nerve fibers in paraffin sections after formalin fixation (*Wilder*) - 785
Silver impregnation. — The effect of different types of fixation on the . . . of paraffin sections of peripheral nerve (*Foot*) - - - - - - - - - - - - - - 777
Silver impregnation. — Two simple methods for the . . . of nerve fibers in paraffin sections of the central and peripheral nervous system (*Foot*) - 769
Skin reactivity. — Phenomenon of local . . . to bacterial filtrates in the treatment of Mouse Sarcoma 180 (*Shwartzman and Michailovsky*) - - 598*
Spina bifida occulta. — Lumbosacral teratoma associated with . . . Report of a case with review of the literature (*Bucy and Haymond*) - - 339
Spleen. — Multiple infarcts and necroses of the . . . (Fleckmilz) (*Rake*) 107
Spongioblastomas. — . . . of the brain (*Bailey*) - - - - - - - - - - - - - - - - 638*
Spotted fever Rickettsiae. — A comparison of typhus and . . . in tissue cultures (*Pinkerton and Hass*) - 609*
Staining. — A method for progressive selective . . . of Nissl and nuclear substance in nerve cells (*Einarson*) - 295
Staining. — Vital . . . of the rabbit's aorta in the study of arteriosclerosis (*Duff*) - 219
Staphylococcus bacteremia. — Therapeutic application of bacteriophage in . . . (*MacNeal and Frisbee*) - 600*
Streptococci. — Cataphoretic velocity of . . . and pneumococci as isolated in studies of acute colds, influenza and pneumonia (*Rosenow*) 604*
Streptococcus viridans. — Syphilitic aortic endocarditis and superimposed bacterial (. . .) endocarditis (*Craven*) - - - - - - - - - - - - - - - - - 81
Sulphydryl. — " Sensitivity " to . . . (*Reimann*) - - - - - - - - - - - - - - - - 612*
Subdural space. — The . . . , with special reference to subdural hemorrhages (*Leary*) - 612*
Suprarenal gland. — Formation of bone marrow in the . . . (*Collins*) - - 97
Syphilis. — A preliminary report on the effect of shaking as applied to the Vernes test for . . . (*Baylis*) - 593*
Syphilitic. — . . . aortic endocarditis and superimposed bacterial (Streptococcus viridans) endocarditis (*Craven*) - 81

T

Teratoma. — Lumbosacral . . . associated with spina bifida occulta. Report of a case with review of the literature (*Bucy and Haymond*) - 339
Thyroid. — The effect of cabbage feeding on the morphology of the . . . of rabbits (*Zeckwer*) - 235
Torula. — . . . infection. A review and report of two cases (*Watts*) - - - 167
Toxemias. — Renal lesions in the . . . of pregnancy (*Bell*) - - - - - - - - - 1
Tubercle. — New studies on the filtrability of pure cultures of the . . . group of microörganisms (*Mellon and Fisher*) - - - - - - - - - - - - - - - 633*
Tubercle bacilli. — The effect of virulence of . . . on the histopathology of tuberculous lesions in normal animals (*Medlar and Sasano*) - - - - 634*
Tubercle bacillus. — Changes which occur in the . . . in relation to the developing tubercle (*Woodruff*) - 635*
Tuberculin. — The sensitization of guinea pigs with . . . and the production of anaphylaxis and allergy to the tuberculo-protein (*Reichle and Goldblatt*) - 626*

Tuberculosis. — Chemical factors in the exudation and necrosis of . . . (*Long*) ---------- 624*

Tuberculosis. — Evidences of the non-specific nature of the giant cell of . . . (*Haythorn*) ---------- 633*

Tuberculosis. — Protection against . . . with BCG vaccine in guinea pigs (*Birkhaug*) ---------- 629*

Tuberculosis. — The cellular reactions of . . . and their relation to immunity and sensitization (*Opie*) ---------- 623*

Tuberculosis. — Tularemic encephalitis. Pathology of acute tularemia with brain involvement and coexisting . . . (*Hartman*) -------- 57

Tuberculous infections. — The persistence of . . . (*Robertson*) ------- 637*

Tuberculous rabbits. — Further studies on the survival time of . . . injected with ferric chloride (*Menkin*) ---------- 636*

Tularemia. — Tularemic encephalitis. Pathology of acute . . . with brain involvement and coexisting tuberculosis (*Hartman*) ------ 57

Tumor. — Fibrocystic disease of the bones associated with . . . of a parathyroid gland. Report of a case (*Rosedale*) ---------- 745

Tumors. — Multiple malignant . . . (*Warren*) ---------- 614*

Tumors. — The classification of . . . of the kidney with especial reference to the malignant . . . in adults (*Crawford*) ---------- 615*

Tumors. — The relation of hemopoietic . . . to multiple myelomas and to Ewing's sarcoma (*Connor*) ---------- 638*

Tumors. — . . . in captive primates. Report of two cases (*Ratcliffe*) --- 117

Typhoid bacillus. — The relation of sensitization of the flagella and somata of the . . . to phagocytosis (*Mudd, Lucké and Strumia*) --- 597*

Typhus. — A comparison of . . . and spotted fever Rickettsiae in tissue cultures (*Pinkerton and Hass*) ---------- 609*

U

Undulant fever. — Comparison of the incitants of . . . in man and contagious abortion in cattle in New York State (*Gilbert and Coleman*) - 609*

Urea. — . . . clearance following unilateral nephrectomy (*Karsner, Moore and Hanzal*) ---------- 623*

Urea. — . . . clearance in nephropathic dogs (*Hanzal, Goldblatt and Summerville*) ---------- 638*

Urea. — . . . clearance in normal dogs (*Summerville, Hanzal and Goldblatt*) ---------- 638*

V

Vaccinal infection. — . . . of the chorio-allantoic membrane of the chick embryo (*Goodpasture, Woodruff and Buddingh*) ---------- 271

Vaccine. — A study of . . . virus pneumonia in rabbits (*Muckenfuss, McCordock and Harter*) ---------- 63

Vaccine therapy. — A study of pathogen-selective cultures in relation to . . . (*Boerner and Solis-Cohen*) ---------- 594*

Valves. — Quantitative observations on the . . . of the human heart (*Gross and Moore*) ---------- 91

Veins. — Anatomical changes in the livers of dogs following mechanical constriction of the hepatic . . . (*Simonds and Callaway*) - - - - - - - - 159

Vernes test. — A preliminary report on the effect of shaking as applied to the . . . for syphilis (*Baylis*) - 593*

Virus. — A study of vaccine . . . pneumonia in rabbits (*Muckenfuss, McCordock and Harter*) - 63

Y

Yellow fever. — . . . encephalitis of the monkey (Macacus rhesus) (*Goodpasture*) - 137
